

# HSSE TOOLBOX TALK

## SLIPS, TRIPS & FALLS PREVENTION

### WHY IT MATTERS

Slips, trips, and falls are one of the leading causes of workplace injuries. Most incidents are preventable through good housekeeping, awareness, and safe behavior.

### COMMON CAUSES

- Wet or oily surfaces
- Poor housekeeping
- Tools, hoses, or cables on walkways
- Poor lighting
- Unsafe ladder or stair use

### PREVENTION RULES

- Keep walkways clean and clear
- Clean spills immediately
- Wear slip-resistant safety footwear
- Walk – never run
- Use handrails and maintain three points of contact

### STOP WORK AUTHORITY

STOP THE JOB if unsafe conditions are identified. Report hazards immediately to supervision.

**WORK SAFE • WALK SAFE • GO HOME SAFE**
